## **Pie Perfect**

Need a pie in a pinch? The Vermont Mystic Pie Company based in Stowe offers an easy, artisanal alternative to homemade desserts. Their frozen bake-and-serve apple pies are made from all-natural Vermont ingredients, including King Arthur flour, Cabot butter, and Champlain Orchards apples. No surprise, considering that Ben Cohen of Ben & Jerry's is an investor, and owner David Barash once worked for the legendary ice cream makers. The company recently introduced a second variety—blueberry-apple pie featuring a delicious mix of Vermont blueberries and blackcurrant puree—and has plans for additional frozen sweets. The pies sell for \$10 each at many East Coast supermarkets and specialty foods stores. (877-588-7437; [vermontmysticpie.com](http://vermontmysticpie.com)) ➤
